

A dynamic shot of a mountain biker in mid-air, performing a jump on a dirt trail. The biker is wearing a bright yellow and blue helmet, a matching jersey, and blue pants. The trail is surrounded by lush green grass and yellow wildflowers. In the background, the majestic, rugged peaks of the Dolomites mountains rise against a clear blue sky.

Pivots Ingenieuren ist genau das gelungen und wir konnten die Grenzen des Möglichen im XC-Bereich verschieben. Wir haben noch nie ein schnelleres und leichteres 100-mm-XC-Fully gebaut. Bist du bereit alles zu geben und deine Limits auf ein Neues auszuloten? Genau dann ist das Mach 4 SL der perfekte Begleiter für dich.

Zumindest bis zu dem Punkt, an dem du den Weg zur nächsten Wahnsinns-Abfahrt aus eigener Kraft überwinden musst – das wäre dann Enduro. Hier kommt das neue Firebird 29 ins Spiel: Mit seinen Geschwindigkeit generierenden 29-Laufrädern und einer Vorliebe dafür, die Konkurrenz Staub schlucken zu lassen, verschlingt es kilometerweise technisches Terrain, rollt leicht über Hindernisse und bietet nicht enden wollende Traktion. Zum Monstertruck wird es dabei aber nicht. Es ist eine leichte Maschine, mit einem lebendigen Charakter und viel Pop. Ein unbekanntes Gefühl an langhubigen 29ern – Bis jetzt.

Das neue Trail 429 ist einfach in jeder Hinsicht großartig. Es klettert bergauf wie ein Cross-Country-Bike, aber hat auch mit ruppigem Terrain kein Problem. Wir haben das Vorgängermodell des Mach 429 Trail komplett überarbeitet und haben ihm eine wahrhaft progressive Geometrie verpasst. Das neue Trail 429 ist auf technischem Terrain noch besser als die erste Version, doch macht deshalb keine Abstriche im Bereich Geschwindigkeit und Wendigkeit. Müheloses Handling, unglaubliche Energieübertragung und blitzschnelle Beschleunigung machen das Trail 429 zu einem ganz besonderen Trailbike.
